## Performance Review

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards ("FRS") with modification to FRS39 Financial Instruments: Recognition and Measurement in respect of loan loss provisioning, as provided in Notice to Banks No. 612 "Credit Files, Grading and Provisioning" issued by Monetary Authority of Singapore ("MAS"). The accounting policies and computation methods adopted in the financial statements for the first half of 2008 are the same as those adopted in the audited financial statements for the financial year ended 31 December 2007.

## First Half 2008 ("1H08") versus First Half 2007 ("1H07")

The Group's net profit after tax ("NPAT") was $\$ 1,130$ million in 1 H 08 , an increase of $2.5 \%$ from $\$ 1,103$ million recorded in 1 H 07 . The growth was mainly attributed to higher net interest income, partially offset by higher impairment charges, lower contributions from associates and higher operating expenses.

Total operating income rose $8.0 \%$ to $\$ 2,690$ million. Net interest income grew $13.3 \%$ to $\$ 1,725$ million, driven by expanded loan volume and higher contributions from interbank money market activities. Non-interest income was flat at $\$ 964$ million as higher investment income and rental income were offset by lower other income.

Total operating expenses increased $4.0 \%$ to $\$ 1,015$ million. Staff costs increased $6.4 \%$ to $\$ 545$ million largely due to higher headcount. Other operating expenses rose $1.3 \%$ to $\$ 469$ million mainly on occupancy-related expenses, partly offset by lower IT-related expenses. Expense-to-income ratio improved 1.5\% points to $37.7 \%$.

Impairment charges increased $59.8 \%$ to $\$ 269$ million largely due to collective impairment provision for loans and collateralised debt obligations ("CDO") and individual impairment charges on CDO. These were partially offset by lower individual impairment charges on loans.

Share of pre-tax profit of associates decreased $50.0 \%$ to $\$ 56$ million mainly due to lower profits recorded by the major associates.

Net customer loans increased $18.1 \%$ to $\$ 97,395$ million as at 30 June 2008. Non-performing loans of $\$ 1,547$ million was 1.5\% (30 June 2007: 2.8\%) of gross customer loans.

## Second Quarter 2008 ("2Q08") versus First Quarter 2008 ("1Q08")

Group NPAT increased $13.5 \%$ to $\$ 601$ million in 2Q08, with operating profit grew $17.6 \%$ to $\$ 905$ million.
Operating income increased $12.4 \%$ to $\$ 1,424$ million. Net interest income rose $2.5 \%$ to $\$ 873$ million, mainly from securities and money market activities, due to lower funding costs. Non-interest income grew $32.9 \%$ to $\$ 550$ million, largely due to higher investment income and dividend income, partly offset by lower other income and fee and commission income.

Total operating expenses increased $4.4 \%$ to $\$ 518$ million. The increase was mainly on staff costs, occupancy-related and revenue-related expenses. Expense-to-income ratio improved $2.8 \%$ points to $36.4 \%$.

Impairment charges were $\$ 180$ million in 2Q08 compared to $\$ 89$ million in 1Q08. The increase was largely due to higher individual impairment charges on loans and CDO, coupled with higher collective impairment provision for loans.

Net customer loans increased $3.2 \%$ to $\$ 97,395$ million as at 30 June 2008. Non-performing loans of $\$ 1,547$ million was 1.5\% (31 March 2008: 1.6\%) of gross customer loans.

## Performance Review (cont'd)

## Second Quarter 2008 ("2Q08") versus Second Quarter 2007 ("2Q07")

Group NPAT increased $2.7 \%$ to $\$ 601$ million for 2 Q08, with operating profit grew $14.2 \%$ to $\$ 905$ million.

Net interest income rose $14.7 \%$ to $\$ 873$ million, mainly attributed to increased loan volume and higher contributions from money market activities. Non-interest income increased $2.7 \%$ to $\$ 550$ million, mainly due to higher investment income, partly offset by lower fee and commission income and other income.

Total operating expenses increased $2.9 \%$ to $\$ 518$ million, primarily due to higher staff costs and occupancy-related expenses. Expense-to-income ratio improved $2.5 \%$ points to $36.4 \%$.

Impairment charges increased $122.5 \%$ to $\$ 180$ million largely due to higher collective and individual impairment charges on loans.

Net customer loans increased $18.1 \%$ to $\$ 97,395$ million as at 30 June 2008. Non-performing loans of $\$ 1,547$ million was 1.5\% (30 June 2007: 2.8\%) of gross customer loans.

## Performance by Business Segment (cont'd)

The Group's businesses are organised into four segments based on the types of products and services that it provides. These segments are Personal Financial Services ("PFS"), Institutional Financial Services ("IFS"), Global Markets and Investment Management ("GMIM") and Other.

## Personal Financial Services

PFS segment covers Consumer, Privilege and Private Banking. Consumer Banking serves the mass individual customers with a wide range of products and services, including deposits, loans, investments, credit and debit cards and life assurance products. Privilege Banking provides an extended range of financial services, including wealth management, offshore and restricted products such as structured notes, funds of hedge funds, and high networth insurance plans to the wealthy and affluent customers. For the accredited investors and high networth individuals, Private Banking provides an elevated level of personal services and consultation.

Segment profit rose $16.1 \%$ to $\$ 476$ million in 1 H 08 . The increase was mainly from higher net interest income driven by loan growth, higher non-interest income from structured products and credit cards, and lower impairment charges on loans. These were partly negated by higher revenue-related expenses to support increased business activities.

## Institutional Financial Services

IFS segment encompasses Commercial Banking, Corporate Banking, Corporate Finance and Capital Markets. Commercial Banking serves the small and medium-sized enterprises. Corporate Banking serves large local corporations, governmentlinked companies and agencies, including non-bank financial institutions. Both Commercial Banking and Corporate Banking provide customers with a broad range of products and services that include current accounts, deposits, lending, asset finance, trade finance, structured finance, cash management and cross-border payments. Corporate Finance provides services that include lead managing and underwriting equity offerings and providing corporate advisory services. Capital Markets specialises in solution-based structures to meet clients' financing requirements in structuring, underwriting and arranging syndicated loans, project finance and structured finance, and underwriting and lead managing bond issues.

Segment profit reduced $2.3 \%$ to $\$ 645$ million in 1 H 08 . The decrease was mainly due to lower contribution from overseas operations, lower gain on foreclosed securities and lower fee income on investment-related activities resulting from the unfavourable market conditions. These were partly negated by higher net interest income on strong loan growth and higher fee income on loan-related activities from Singapore operations.

## Global Markets and Investment Management

GMIM segment provides a comprehensive range of treasury products and services, including foreign exchange, money market, fixed income, derivatives, margin trading, futures broking, gold products, as well as an array of structured products. It is a dominant player in Singapore dollar treasury instruments as well as a provider of banknote services in the region. It also engages in asset management, proprietary investment activities and the management of excess liquidity and capital funds.

Segment profit decreased $37.3 \%$ to $\$ 283$ million in 1 H 08 as performance was partly affected by the continuing deterioration of the global equity and credit markets. The decrease was mainly attributed to mark-to-market losses from trading activities and securities, and lower fee income from asset management activities. These were partly offset by higher realised gain on investment securities.

## Other

Other segment includes property-related activities and insurance businesses.
The segment recorded a profit of $\$ 37$ million in 1 H 08 compared to a loss of $\$ 126$ million in 1 H 07 , mainly due to higher realised gain on investment securities and higher rental income on properties. These were partly offset by provision for a long-term investment and higher collective impairment provision for the expanded loan portfolio.

## Notes:

1 Based on the location where the transactions and assets are booked which approximates that based on the location of the customers and assets. Information is stated after elimination of inter-segment transactions
2 Revaluation loss on the USD capital injected in China was $\$ 11 \mathrm{~m}$ for 2 Q 08 (1Q08: $\$ 30 \mathrm{~m}$ ). This was offset by a corresponding revaluation gain in Singapore where the USD exposure was hedged back-to-back. Excluding the revaluation loss, Greater China would have recorded a pre-tax profit of \$32m for 2Q08 (1Q08: \$26m).

## Capital Adequacy Ratios

The Group adopted Basel II framework for its CAR computation in accordance with the revised MAS Notice 637 with effect from January 2008.

Group tier 1 CAR reduced $0.5 \%$ point over 31 March 2008 to $10.2 \%$ as at 30 June 2008 largely due to dividend payment in the quarter. Group total CAR decreased $1.2 \%$ points to $14.4 \%$ as at 30 June 2008 . The decrease was due mainly to amortisation of, and fair value adjustment attributable to interest rate risk on subordinated debts, as well as dividend payment.

Group tier 1 CAR and total CAR as at 30 June 2008 were $4.2 \%$ points and $4.4 \%$ points above the minimum $6 \%$ and $10 \%$ required by MAS respectively.

Note:
1 Include operational risk (with effect from January 2008) and market risk.
