#### Performance Review

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards ("FRS") as required by the Singapore Companies Act, with modification to FRS39 Financial Instruments: Recognition and Measurement in respect of Ioan loss provisioning, as provided in the Monetary Authority of Singapore ("MAS") Notice 612 Credit Files, Grading and Provisioning.

The amended FRS applicable to the Group with effect from 1 January 2012 are listed below. The adoption of these FRS has no significant impact on the financial statements of the Group.

- Amendments to FRS12 Deferred Tax Recovery of Underlying Assets
- Amendments to FRS107 Disclosures Transfers of Financial Assets

Other than the above changes, the accounting policies and computation methods adopted in the financial statements for the first quarter 2012 are the same as those adopted in the audited financial statements for the financial year ended 31 December 2011.

#### First quarter 2012 ("1Q12") versus fourth quarter 2011 ("4Q11")

The Group registered a net profit of \$688 million for the quarter, 23.3% higher compared to 4Q11. Operating profit rose 11.7% to \$953 million, while impairment charges were lower at \$104 million.

Net interest income increased 2.1% to reach a new quarter high of \$998 million as assets volume continued to expand and interest margin improved further. Net interest margin increased 3 basis points to 1.98% in 1Q12 mainly due to loans yield increasing faster than the increase in cost of funds.

Non-interest income rose 26.1% to \$630 million due to higher fee and commission income as well as trading and investment income. Fee and commission income increased 10.8% to \$362 million, contributed by loan-related activities, wealth management products and corporate finance activities. Trading and investment income was \$203 million mainly due to gains from sale of investments.

Total operating expenses rose 8.2% to \$676 million. Higher staff costs were mainly due to increased investment in talent across Singapore and the regional countries. Revenue-related expenses were also higher, attributed to increased business volumes. Expense-to-income ratio improved 0.8% point to 41.5% with higher income growth.

Total impairment charges for 1Q12 were \$104 million mainly for individual impairment on loans. Total loans charge off rate remained at 30 basis points, same as in 4Q11. Non-performing loans ("NPL") coverage improved to 136.6% while NPL ratio stayed at 1.4%.

Net customer loans grew 2.6% for the quarter to reach \$144.9 billion as at 31 March 2012. The increase was registered mainly in Singapore and Malaysia.

The Group's funding position remained strong. Loans-to-deposits ratio as at end March was 86.0%, 2.7% points higher than 4Q11. Customer deposits were stable at \$168.5 billion as at 31 March 2012. During the quarter, US\$750 million fixed rate senior notes were raised to further improve the funding position.

Shareholders' equity increased 3.5% to \$23.8 billion as at 31 March 2012, largely due to higher retained earnings and unrealised gain from the available-for-sale investment portfolio.

Core Tier 1, Tier 1 and total capital ratios as at 31 March 2012 were 12.3%, 13.9% and 17.1% respectively. These ratios were higher against 4Q11, largely attributed to higher retained earnings.

#### First quarter 2012 ("1Q12") versus first quarter 2011 ("1Q11")

Compared with 1Q11, net profit increased 12.4% to \$688 million on stronger operating profit which grew 13.5% to \$953 million.

Net interest income grew 14.6% to \$998 million contributed by strong loans growth. Net interest margin increased 8 basis points to 1.98% with improved assets mix geared towards higher-yielding loans.

Non-interest income increased 14.3% to \$630 million. Fee and commission income rose 9.5% to \$362 million, with increases registered across most business areas in Singapore and the regional countries. Trading and investment income increased to \$203 million from \$165 million in 1Q11.

Total operating expenses rose 15.9% mainly on increased staff costs as well as higher revenue-related expenses. Expense-to-income ratio increased 0.5% point to 41.5%.

Shareholders' equity rose 7.5% to \$23.8 billion mainly contributed by higher retained earnings and the issuance of ordinary shares in June 2011 pursuant to the scrip dividend scheme.

The capital adequacy ratios were lower compared to a year ago, largely due to higher risk-weighted assets.

As at 31 March 2012, revaluation surplus of \$3.3 billion on the Group's properties was not recognised in the financial statements.

#### Performance by Operating Segment

The Group is organized to be segment-led across key markets. Global segment heads are responsible for driving business, with decision-making balanced with a geographical perspective. For internal management purposes, the following segments represent the key customer segments and product groups:

#### Group Retail ("GR")

GR segment covers Consumer, Privilege, Business and Private Banking. Consumer Banking serves the individual customers, while Business Banking serves small enterprises with a wide range of products and services, including deposits, loans, investments, credit and debit cards and insurance products. Privilege Banking provides an extended range of financial services, including wealth management, and restricted products such as structured notes, funds of hedge funds, and insurance plans to the wealthy and affluent customers. Private Banking caters to the high net worth individuals and accredited investors, offering financial and portfolio planning, including investment management, asset management and estate planning.

Segment profit increased 10.9% to \$264 million in 1Q12. Higher net interest income and fee and commission income were partly negated by higher business volume-related costs and impairment charges.

#### Group Wholesale ("GW")

GW segment encompasses Commercial Banking, Corporate Banking, Financial Institutions Group ("FIG"), Corporate Finance and Debt Capital Markets. Commercial Banking serves the medium and large enterprises, while Corporate Banking serves large local corporations, government-linked companies and agencies, and FIG serves financial institutions. Commercial Banking, Corporate Banking and FIG provide customers with a broad range of products and services that include current accounts, deposits, lending, asset finance, ship finance, trade finance, structured finance, cash management and cross-border payments. Corporate Finance provides services that include lead managing and underwriting equity offerings and corporate advisory services. Debt Capital Markets specialises in solution-based structures to meet clients' financing requirements in structuring, underwriting and arranging syndicated loans for general corporate needs, leveraged buy-outs, project and structured finance, and underwriting and lead managing bond issues.

Segment profit grew 12.6% to \$428 million in 1Q12, with increases registered in net interest income as well as loanrelated and trade-related fee income driven by strong loans growth. This was partly negated by higher impairment charges.

#### Global Markets and Investment Management ("GMIM")

GMIM segment provides a comprehensive range of treasury products and services, including foreign exchange, money market, fixed income, derivatives, margin trading, futures broking, gold products, as well as an array of structured products. It is a dominant player in Singapore dollar treasury instruments as well as a provider of banknote services in the region. It also engages in asset management, proprietary investment activities and management of excess liquidity and capital funds.

Segment profit increased 1.2% to \$175 million in 1Q12, mainly attributed to higher income from trading and interest rate management activities, partly offset by increased operating expenses from higher business volumes.

#### Others

Others include property-related activities, insurance businesses and income and expenses not attributable to other operating segments mentioned above.

The segment recorded a profit of \$26 million in 1Q12 compared to a loss of \$6 million in 1Q11. This was mainly due to gain from sale of investment securities and lower collective impairment, partly offset by higher operating expenses.
