－FRS19 Employee Benefits
－FRS113 Fair Value Measurements
－Amendments to FRS1－Presentation of Items of Other Comprehensive Income
－Amendments to FRS107 Disclosures－Offsetting of Financial Assets and Financial Liabilities

## First half 2013 （＂1H13＂）versus first half 2012 （＂1H12＂）

The Group＇s net profit after tax（＂NPAT＂）for 1 H 13 rose $7.5 \%$ to $\$ 1.51$ billion，mainly supported by strong fee income and higher contribution from associates＇profits．

Net interest income of $\$ 2$ billion in 1 H 13 was at the same level as 1 H 12 ．Average assets volume grew $14.7 \%$ from a year ago and cushioned the impact from downward margin pressure．Net interest margin stood at $1.71 \%, 24$ basis points lower when compared with 1 H 12 mainly due to declined loans yield．

Non－interest income grew $6.1 \%$ to $\$ 1.34$ billion in 1 H13．Fee and commission income was $\$ 889$ million， $18.9 \%$ higher compared with 1 H 12 ．The increase in fee income was across Singapore and the regional countries with strong growths in corporate finance and capital markets，wealth management，fund management and loan－related businesses．Trading and investment income declined $27.3 \%$ to $\$ 257$ million due to lower gain from sale of securities．

Group operating expenses rose $6.0 \%$ to $\$ 1.42$ billion in 1 H 13 ，mainly on higher staff costs as the Group continued to invest in talent across Singapore and the region．Consequently，expense－to－income ratio increased $1.5 \%$ points to 42．9\％．

Total impairment charges declined a marginal $1.5 \%$ to $\$ 205$ million in 1 H 13 due to lower individual impairment on loans．Collective impairment of $\$ 177$ million was set aside in line with loans growth．The Group＇s credit quality remained robust．Total loans charge off rate stood constant at 30 basis points．Non－performing loans（＂NPL＂）ratio improved $0.2 \%$ point to $1.2 \%$ from a year ago while NPL coverage strengthened to $139.4 \%$ ．

Share of associates＇profits grew from $\$ 49$ million in 1 H 12 to $\$ 125$ million in 1 H 13 ，as some associate companies realised higher gains on investment．

Gross customer loans increased $\$ 23.1$ billion or $15.4 \%$ to $\$ 173$ billion as at 30 June 2013．The strong growth was across territories and most industries．Loans from Singapore grew $17.9 \%$ to reach $\$ 114$ billion while the regional countries＇loans increased $10.2 \%$ to $\$ 49.4$ billion．

The Group＇s funding position stayed healthy with loans－to－deposits ratio at $89.9 \%$ as at 30 June 2013．Customer deposits rose $\$ 20.2$ billion or $12.0 \%$ to reach $\$ 189$ billion．The increase was contributed by Singapore and the regional countries on higher fixed deposits，savings and current accounts．To diversify the Group funding base further，$\$ 1.93$ billion was issued under the US $\$ 10$ billion US commercial paper programme during the period．

Shareholders＇equity rose $7.6 \%$ to $\$ 25.6$ billion，largely contributed by higher retained earnings as well as improved valuation on the available－for－sale investment portfolio．Return on shareholders＇equity was $12.4 \%$ for 1 H 13 ．

The Group adopted Basel III framework for its computation of capital adequacy ratios（＂CAR＂）in accordance with the revised MAS Notice 637 with effect from January 2013．The Group remained well capitalised with Common Equity Tier 1 （＂CET1＂），Tier 1 and Total CAR at $13.6 \%, 13.6 \%$ and $17.2 \%$ as at 30 June 2013 respectively．

## Performance Review（cont＇d）

## Second quarter 2013 （＂2Q13＂）versus first quarter 2013 （＂1Q13＂）

The Group recorded another quarter－high NPAT of $\$ 783$ million in 2 Q 13 ，an increase of $8.4 \%$ from 1 Q13．The strong quarter performance was contributed by higher net interest income，increased share of associates＇profits，as well as lower impairment charges．

2Q13 net interest income crossed the $\$ 1$－billion mark to reach $\$ 1.02$ billion，an increase of $5.4 \%$ when compared with 1 Q13．The increase was supported by higher loans volume which mitigated the compressed margin．Net interest margin improved 1 basis point to $1.71 \%$ on improved assets mix and lower cost of funds．Loans yield remained compressed in the low interest rate environment．

In 2Q13，fee and commission income was $\$ 436$ million， $3.7 \%$ lower as compared with $1 Q 13$ record－high．Steady income contribution from trade－related，credit card and distribution of wealth management products continued in the quarter．Loan－related fee income stayed healthy at $\$ 103$ million．Trading and investment income declined $37.0 \%$ to $\$ 99$ million on loss from sale of government securities as a result of the steepening yield curve．

Total operating expenses increased $4.3 \%$ to $\$ 726$ million in support of business growth．Expense－to－income ratio increased $2.6 \%$ points to $44.2 \%$ ．

Total impairment charges was lower at $\$ 75$ million for 2Q13，mainly due to write－back of individual impairment． Collective impairment of $\$ 86$ million was set aside for the quarter．Total loans charge off rate remained at 30 basis points，while NPL ratio improved to $1.2 \%$ ．

Share of associates＇profits increased to $\$ 101$ million in 2Q13，as some associates benefited from higher gains on investment securities．

Gross customer loans increased 3．3\％for the quarter to reach $\$ 173$ billion as at 30 June 2013．Loans growth was across industries and territories．Singapore continued to grow its loan base at $3.4 \%$ ，while the regional countries grew faster at $3.5 \%$ in 2 Q13．US dollar loans increased $11.4 \%$ to $\$ 22.5$ billion with US dollar loans－to－deposits ratio at $88.2 \%$ as at 30 June 2013.

Customer deposits rose slightly during the quarter to $\$ 189$ billion as at 30 June 2013．The increase was mostly in savings and fixed deposits．Loans－to－deposits ratio increased to $89.9 \%$ ，with robust loans growth outpacing deposits growth．

Shareholders＇equity declined $1.8 \%$ to $\$ 25.6$ billion in 2Q13，largely due to lower valuation gain on the available－for－ sale investment portfolio．

Group CET1 and Total CAR of $13.6 \%$ and $17.2 \%$ as at 30 June 2013 respectively were well above the minimum requirements of MAS．The capital ratios decreased quarter－on－quarter mainly due to lower available－for－sale valuation reserve and higher risk－weighted assets from assets growth．

## Second quarter 2013 （＂2Q13＂）versus second quarter 2012 （＂2Q12＂）

Compared with 2Q12，Group NPAT rose $9.9 \%$ to $\$ 783$ million．The profit growth was boosted by higher contribution from net interest income，fee income and associates＇profits，as well as lower impairment charges．

Net interest income grew $3.5 \%$ to $\$ 1.02$ billion as income from higher assets volume more than offset the margin compression．Net interest margin was lower at $1.71 \%$ ．Fee income increased $13.0 \%$ to $\$ 436$ million with growths registered in Singapore and the regional countries．Strong contribution came from investment－related and fund management businesses．Trading and investment income decreased $34.2 \%$ to $\$ 99$ million due to loss on sale of government securities in 2Q13．

Total operating expenses was $9.0 \%$ higher when compared with 2Q12，mainly on increased staff costs．
Compared to 2Q12，total impairment charges declined $28.6 \%$ to $\$ 75$ million with lower individual impairment．

Compared to 30 June 2012，shareholders＇equity rose $7.6 \%$ ，largely contributed by higher retained earnings as well as improved valuation on the available－for－sale investment portfolio．

As at 30 June 2013，revaluation surplus of $\$ 3.71$ billion on the Group＇s properties was not recognised in the financial statements．

## Performance by Operating Segment

The Group is organised to be segment－led across key markets．Global segment heads are responsible for driving business，with decision－making balanced with a geographical perspective．For internal management purposes，the following segments represent the key customer segments and business activities：

## Group Retail（＂GR＂）

GR segment covers Consumer，Privilege，Business and Private Banking．Consumer Banking serves the individual customers，while Business Banking serves small enterprises with a wide range of products and services，including deposits，loans，investments，credit and debit cards and insurance products．Privilege Banking provides an extended range of financial services，including wealth management，and restricted products such as structured notes，funds of hedge funds，and insurance plans to the wealthy and affluent customers．Private Banking caters to the high net worth individuals and accredited investors，offering financial and portfolio planning，including investment management，asset management and estate planning．

Segment profit increased $9.8 \%$ to $\$ 572$ million in 1 H 13 ，mainly driven by higher fee and commission income from investment－related activities．The increase was partly negated by higher business volume－related costs．

## Group Wholesale（＂GW＂）

GW segment encompasses Commercial Banking，Corporate Banking，Financial Institutions Group（＂FIG＂），Corporate Finance and Debt Capital Markets．Commercial Banking serves the medium and large enterprises，while Corporate Banking serves large local corporations，government－linked companies and agencies，and FIG serves financial institutions．Commercial Banking，Corporate Banking and FIG provide customers with a broad range of products and services that include current accounts，deposits，lending，asset finance，ship finance，trade finance，structured finance， cash management and cross－border payments．Corporate Finance provides services that include lead managing and underwriting equity offerings and corporate advisory services．Debt Capital Markets specialises in solution－based structures to meet clients＇financing requirements in structuring，underwriting and arranging syndicated loans for general corporate needs，leveraged buy－outs，project and structured finance，and underwriting and lead managing bond issues．

Segment profit grew $12.4 \%$ to $\$ 1,042$ million in 1 H 13 ，supported by higher income from loan－related，treasury and investment activities，as well as lower impairment charges．The growth was partly negated by higher operating expenses．

## Global Markets and Investment Management（＂GMIM＂）

GMIM segment provides a comprehensive range of treasury products and services，including foreign exchange， money market，fixed income，derivatives，margin trading，futures broking，gold products，as well as an array of structured products．It is a dominant player in Singapore dollar treasury instruments as well as a provider of banknote services in the region．It also engages in asset management，proprietary investment activities and management of excess liquidity and capital funds．Income from treasury products and services offered to customers of other customer segments，such as Group Retail and Group Wholesale，is reflected in the respective customer segments．

Segment profit decreased $15.6 \%$ to $\$ 216$ million in 1 H 13 ，mainly attributed to lower income from trading and interest rate management activities and higher operating expenses．The results in 1 H 13 reflect the relatively tougher operating conditions in the interest rates and fixed income markets．The lower income from treasury activities was partially mitigated by higher fee income from fund management activities．

## Others

Others include property－related activities，insurance businesses and income and expenses not attributable to other operating segments mentioned above．

Segment recorded a loss of $\$ 17$ million in 1 H 13 as compared to a profit of $\$ 29$ million in 1 H 12 ，mainly due to higher collective impairment and lower net interest income．This was partly offset by lower operating expenses and higher share of profit of associates．

The Group adopted Basel III framework for its CAR computation in accordance with the revised Monetary Authority of Singapore（＂MAS＂）Notice 637 with effect from January 2013．Disclosures prior to January 2013 are calculated based on Basel II framework and therefore are not directly comparable to disclosures made from January 2013.

Under the Basel III framework，disclosed reserves include the full amount of available－for－sale valuation reserve． Preference shares and subordinated notes issued are subject to phase derecognition under the Basel III transitional rules．Risk－weighted assets are exposed to higher capital requirement on exposures to financial institutions and new capital charge on over－the－counter derivatives．

The Group＇s CET1，Tier 1 and Total CAR as at 30 June 2013 were well above the regulatory minimum requirements．The decrease in CAR compared to 31 March 2013 was mainly attributed to lower available－for－sale valuation reserve and higher risk－weighted assets from assets growth．
