## Performance Review

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards （＂FRS＂）as required by the Singapore Companies Act，with modification to FRS39 Financial Instruments： Recognition and Measurement in respect of loan loss provisioning，as provided in the Monetary Authority of Singapore（＂MAS＂）Notice 612 Credit Files，Grading and Provisioning．

The revised FRS applicable to the Group with effect from 1 January 2017 are listed below．The adoption of these FRS is not expected to have a significant impact on the financial statements of the Group．
－Amendments to FRS 7 －Disclosure Initiative
－Amendments to FRS 12 －Recognition of Deferred Tax Assets for Unrealised Losses
Other than the above changes，the accounting policies and computation methods adopted in the financial statements for the first half of 2017 are the same as those adopted in the audited financial statements for the financial year ended 31 December 2016.

## 1H17 versus 1H16

The Group registered net earnings of $\$ 1.65$ billion， $5.5 \%$ higher than a year ago．
Net interest income grew $7.0 \%$ to $\$ 2.66$ billion，led by loan growth across most territories and industries．Net interest margin increased one basis point to 1．74\％．

Non－interest income increased $9.3 \%$ to $\$ 1.65$ billion．Fee and commission income rose $13 \%$ to $\$ 1.03$ billion， driven by stronger performance from credit card，fund and wealth management products．Other non－interest income increased $3.5 \%$ to $\$ 621$ million from higher net trading income．

Total expenses at $\$ 1.95$ billion were $7.2 \%$ higher than a year ago，attributed mainly to increases in staff， revenue－related and IT－related expenses as the Group continues to invest in technology and infrastructure to enhance its capabilities．The expense－to－income ratio remained stable at 45．3\％．

Total allowances for loans and other assets at $\$ 366$ million were $32 \%$ higher than a year ago．This was mainly due to higher specific allowance on loans and a release of general allowances in 1H16 that were no longer required on other assets relating to debt securities．Specific allowance on loans increased \＄196 million to \＄449 million，largely from the oil and gas and shipping industries．Together with a release in general allowance on loans，total credit costs on loans were maintained at 32 basis points．Total general allowance remained robust at $\$ 2.62$ billion and the ratio of general allowance to gross loans was $1.2 \%$ as at 30 June 2017．While the environment has improved over the past year，the Group is monitoring and managing specific oil and gas related exposures closely amid a backdrop of muted oil prices．Given the prudent levels of coverage，the Group remains comfortable that sufficient buffers are in place to navigate through continued challenges in the industry．

Contribution from associated companies in the period rose from $\$ 2$ million to $\$ 59$ million，mainly due to investment losses in an associated company in 1H16．

## 2Q17 versus 2Q16

The Group reported net earnings of $\$ 845$ million in $2 \mathrm{Q} 17,5.5 \%$ higher as compared with 2 Q 16 ．
Net interest income increased 12\％to $\$ 1.36$ billion，driven by gross loan growth of $7.3 \%$ and an improvement in net interest margin of seven basis points to $1.75 \%$ ．

Non－interest income increased $1.8 \%$ to $\$ 828$ million．Fee and commission income grew $9.0 \%$ to $\$ 517$ million on higher credit card，fund and wealth management fees．Other non－interest income declined $8.3 \%$ driven mainly by lower net trading income．

Total expenses rose $7.3 \%$ from a year ago to $\$ 995$ million due to higher staff and IT－related expenses．
Total allowances increased $12 \%$ to $\$ 180$ million．Specific allowance on loans increased $42 \%$ to $\$ 172$ million mainly due to NPL recoveries last year．

## 冊 UOB

## Performance Review（cont＇d）

## 2 Q17 versus 1Q17

Compared with the previous quarter，net earnings were $4.6 \%$ higher at $\$ 845$ million．
Net interest income increased $4.0 \%$ to $\$ 1.36$ billion on higher net interest margin，increasing two basis points to 1．75\％．

Non－interest income was stable at $\$ 828$ million．Fee and commission income increased $1.7 \%$ to $\$ 517$ million on higher credit card，fund and wealth management fees．Other non－interest income was relatively flat from a quarter ago．

Total expenses increased $4.0 \%$ to $\$ 995$ million mainly on higher staff and IT－related expenses as the Group continues to invest in technology and infrastructure to enhance its capabilities．Expense－to－income ratio was stable at 45．6\％．

Total allowances were $3.4 \%$ lower this quarter at $\$ 180$ million．Specific allowance on loans decreased $38 \%$ to $\$ 172$ million which translated to 30 basis points．Total credit costs on loans were maintained at 32 basis points given the Group＇s approach in building up reserves during periods when specific allowance is low．

## Balance sheet and capital position

The Group continues to maintain a strong funding position．The loan－to－deposit ratio stayed healthy at 86．1\％． Customer deposits increased $4.7 \%$ from a year ago to $\$ 260$ billion，led by growth in Singapore dollar and US dollar deposits．Gross loans also rose to $\$ 228$ billion at 1 H 17 ，with a year－on－year increase of $7.3 \%$ that was broad－based across most territories and industries．

In the first half of this year，the Group had issued $\$ 2.54$ billion in debt and capital securities to diversify its funding mix and to refinance debts due for redemption this year．

The average Singapore dollar and all－currency liquidity coverage ratios during the second quarter were 203\％ and $157 \%$ respectively，well above the corresponding regulatory requirements of $100 \%$ and $80 \%$ ．

NPL ratio was stable at $1.5 \%$ as at 30 June 2017．NPL coverage remained strong at $113.9 \%$ ，or $241.1 \%$ after taking collateral into account．

Shareholders＇equity increased by $11 \%$ from a year ago and $2.7 \%$ quarter－on－quarter to $\$ 34.7$ billion due to higher retained earnings and strong scrip dividend participation．Return on equity improved to $10.3 \%$ in 2 Q 17 from 10．0\％in 1Q17．

As at 30 June 2017，the Group＇s Common Equity Tier 1 and Total CAR remained strong at $13.8 \%$ and $17.8 \%$ respectively．On a fully－loaded basis，the Common Equity Tier 1 CAR stood at 13．3\％．The Group＇s leverage ratio was $7.8 \%$ ，well above Basel＇s minimum requirement of $3 \%$ ．

Total allowances for loans and other assets at $\$ 366$ million were $32 \%$ higher than a year ago. This was mainly due to higher specific allowance on loans and a release of general allowances in 1 H 16 that were no longer required on other assets relating to debt securities. Specific allowance on loans increased $\$ 196$ million to $\$ 449$ million, largely from the oil and gas and shipping industries. Together with a release in general allowance on loans, total credit costs on loans were maintained at 32 basis points.

Total general allowance remained robust at $\$ 2.62$ billion and the ratio of general allowance to gross loans was $1.2 \%$ as at 30 June 2017. While the environment has improved over the past year, the Group is monitoring and managing specific oil and gas related exposures closely amid a backdrop of muted oil prices. Given the prudent levels of coverage, the Group remains comfortable that sufficient buffers are in place to navigate through continued challenges in the industry.

Against same quarter last year, total allowances increased $12 \%$ to $\$ 180$ million. Specific allowance on loans increased 42\% to \$172 million mainly due to NPL recoveries last year.

Compared to last quarter, total allowances were $3.4 \%$ lower this quarter at $\$ 180$ million. Specific allowance on loans decreased $38 \%$ to $\$ 172$ million which translated to 30 basis points. Total credit costs on loans were maintained at 32 basis points given the Group's approach in building up reserves during periods when specific allowance is low.

## Performance by Business Segment

Segmental reporting is prepared based on the Group's internal organisational structure. The Banking Group is organised into three major business segments - Group Retail, Group Wholesale Banking and Global Markets. Others segment includes non-banking activities and corporate functions.

## Group Retail ("GR")

GR segment covers personal and small enterprise customers.
Customers have access to a diverse range of products and services, including deposits, insurance, card, wealth management, investment, loan and trade financing products which are available across the Group's global branch network.

Profit before tax was $\$ 891$ million in $1 \mathrm{H} 17,12 \%$ higher than a year ago. Net interest income rose $6 \%$ from healthy loan and deposit growth. Non-interest income grew 19\% driven by strong growth in fee income from wealth management and credit card products. This was partly offset by higher staff and revenue related expenses.

Compared to the same quarter last year, profit before tax improved by $7 \%$ to $\$ 445$ million, led by higher operating income. Expenses increased from headcount growth to support regional expansion and higher business volume. Profit before tax was relatively flat against the previous quarter.

## Group Wholesale Banking ("GWB")

GWB encompasses corporate and institutional client segments which include medium and large enterprises, local corporations, multi-national corporations, financial institutions, government-linked entities, financial sponsors and property funds.

GWB provides customers with a broad range of products and services, including financing, trade services, cash management, capital markets solutions and advisory, treasury products and banknotes.

Profit before tax declined $17 \%$ to $\$ 980$ million in 1 H 17 , primarily from higher allowances for credit and other losses relating to oil and gas sectors. Total income was relatively flat, as volume growth and improvement in transaction banking were negated by a decline in loan margin, attributable to widening SOR against SIBOR. Expenses increased $3 \%$ to $\$ 409$ million on continued investment in technology and product capabilities.

As compared to last quarter and same quarter last year, operating income declined marginally to $\$ 855$ million from lower loan-related fees and treasury customer income. Allowances for credit and other losses moderated to \$111 million this quarter from $\$ 246$ million in 1 Q17.

## Global Markets ("GM")

GM provides a comprehensive suite of treasury products and services across multi asset classes which includes foreign exchange, interest rate, credit, commodities, equities and structured investment products to help customers manage market risks and volatility. GM also engages in market making activities and management of funding and liquidity.

Income from products and services offered to customers of Group Retail and Group Wholesale Banking are reflected in the respective client segments.

Profit before tax was $\$ 132$ million in 1H17, 11\% lower than a year ago. Net interest income increased $\$ 62$ million to $\$ 128$ million on the back of higher interest from interbank balances and securities, but was more than offset by lower profit on trading securities and unfavourable foreign exchange movement.

Profit before tax declined $\$ 9$ million to $\$ 66$ million against the corresponding quarter last year, largely from unfavourable foreign exchange movement and lower gain on sale of securities. Profit before tax was higher by $5 \%$ than the previous quarter, supported by higher net interest income.

## Others

Others segment includes corporate support functions and decisions not attributable to business segments mentioned above and other activities, which comprises property, insurance and investment management.

Other segment recorded a gain of $\$ 45$ million in 1 H 17 as compared to a loss of $\$ 235$ million a year ago, led by higher income from fund management, central treasury activities, improvement in share of associates' profits and write-back of general allowances.

Net loss narrowed to $\$ 17$ million in 2Q17 from $\$ 119$ million in the same quarter last year, on the back of higher investment income and central treasury activities. 2Q17 recorded a loss as compared to a gain of $\$ 60$ million in 1Q17, mainly due to write-back of general allowances in the previous quarter.
