UOB Asset Management Unveils Strategic Alliance With UTI International

Investors can benefit from a joint platform of complementary expertise in investment management and extensive distribution network

SINGAPORE, 25 August 2009 - UOB Asset Management Ltd (“UOBAM”) today announced a strategic alliance with UTI International (Singapore) Private Limited (“UTIIS”) to manage Asia and India investment funds. The two parties will also be collaborating on the business front to launch new funds jointly and also to offer a range of other investment services. UTIIS is a subsidiary of the oldest and one of India’s largest fund managers, UTI Asset Management Company.

The complementary investment expertise of UOBAM and UTIIS will provide the two houses with significant leverage in their offering of investment solutions, especially in the management of Asia and India-centric funds. The new relationship will also enable both sides to ride on each party’s extensive distribution network.

For investors, the Alliance will mean more ways to gain investment exposure to the abundant opportunities in Asia. The region’s healthy fundamentals have led most of the economies to rebound more quickly than expected from the global credit crisis and Asia is likely to continue to be one of the fastest growing regions in the world.

The first initiative of the alliance is an equity fund that both parties have jointly developed. The features of the fund will be announced at a later date.

Mr. Thio Boon Kiat, Managing Director and Chief Investment Officer of UOB Asset Management, said, “UOBAM is honoured to collaborate with such a highly regarded and experienced fund manager as UTI. This partnership is a win-win situation for both investors and the partners. It allows both organisations to offer best-in-class investment solutions that tap the vast potential of Asia and India.”

Mr. Praveen Jagwani, Chief Executive Officer of UTIIS, said, “We welcome this opportunity to be a partner with one of the leading fund houses in the region and we look forward to a valuable working partnership with UOBAM.”
