Singapore, 30 October 2015 – The UOB Group (“Group”) posted net earnings of S$2.42 billion for the nine months of 2015 (“9M15”), 1.7% lower from a year ago as prior year results included a higher write-back of tax provisions. Total income rose 6.4% to reach S$5.97 billion, contributed by steady growth in net interest income and fee income across major business segments.

For the third quarter of 2015 (“3Q15”), net earnings was reported at S$858 million, an increase of 12.6% over the second quarter of 2015 (“2Q15”) and 1.0% lower from a year ago. Stronger 3Q15 earnings were backed by higher treasury contributions and client franchise income.

The Group’s liquidity and funding position was stable and well diversified. Loan-to-deposit ratio stood at 81.6% as at end September 2015. Asset quality remained resilient with the non-performing loan ratio at 1.3% as at 30 September 2015.

To commemorate UOB’s 80th anniversary, the Board is pleased to declare a one-off 80th Anniversary dividend of 20 cents per ordinary share. Shareholders have the option to receive the dividend in cash and/or new UOB shares.

Nine months 2015 earnings
Net interest income rose 7.7% to S$3.65 billion, benefitting from healthy loan growth and improved net interest margin. Net interest margin increased 5 basis points to 1.77% as loan yields improved on rising interest rates in Singapore.

Non-interest income increased 4.5% to S$2.32 billion in 9M15. Fee and commission income was S$1.40 billion, 8.0% higher from a year ago with broad-based growth registered across most businesses. Trading and investment income improved 5.2% to S$691 million, with higher contributions from sale of investment securities as well as treasury customer income.
Total expenses rose 12.4% to S$2.63 billion due to continued investment in people capabilities and technology. This was also partly due to an expense of S$28 million incurred on a brand campaign and employee incentives to celebrate both UOB’s 80th anniversary (UOB80) and Singapore’s Golden Jubilee (SG50). Expense-to-income ratio was 44.1%, or 43.7% after excluding the one-off expense. The Group expects to spend about $60 million for the brand campaign, and UOB80 and SG50 commemorative events for the full year of 2015.

Total allowances were S$481 million, an increase of 2.6% from a year ago while the total loan charge-off rate was stable at 32 basis points. Specific allowances on loans increased to S$277 million mainly from Singapore, Indonesia and Greater China. The increase was partially offset by a decline in general allowances. General allowances coverage ratio remained strong at 1.4% of the loan book.

Third quarter 2015 earnings
3Q15 versus 3Q14
The Group reported net earnings of S$858 million in 3Q15, a marginal decline of 1.0% from a year ago. Total income was 5.8% higher at S$2.09 billion, led by strong core income and one-off gains from sale of investment securities.

Net interest income rose 6.9% to S$1.24 billion in 3Q15. Net interest margin increased 6 basis points to 1.77%, contributed mainly by improved loan yields as the loan portfolio re-priced on rising interbank and swap offer rates in Singapore.

Non-interest income for 3Q15 increased 4.2% to S$850 million. Fee and commission income grew 2.1% to S$485 million on higher contributions from credit card and wealth management income. Trading and investment income surged 20.6% to S$310 million, driven by one-off gains from the sale of investment securities, partly offset by lower net trading income.

Total expenses increased 13.0% to S$904 million mainly on higher staff costs and revenue-related expenses. Expense-to-income ratio was 43.4% in 3Q15.

Total allowances were flat at S$160 million in 3Q15.
3Q15 versus 2Q15

Net earnings of S$858 million for 3Q15 was 12.6% higher when compared with the previous quarter, largely driven by stronger net interest income and loan-related fee income, coupled with one-off gains from the sale of investment securities.

Total expenses increased 3.1% to S$904 million mainly due to UOB80 and SG50 commemorative events as well as the brand campaign.

Total allowances increased 5.0% to S$160 million in 3Q15 on higher general allowances set aside for loans. Specific allowances on loans declined 64.9% to S$56 million due to loan recoveries and lower non-performing loans (NPL).

Strong balance sheet and capital position

Gross loans grew 3.7% from a year ago and 0.4% quarter-on-quarter to S$203 billion as at 30 September 2015. In constant currency terms, the underlying loan growth was 5.5% when compared to the same period last year.

The Group’s liquidity position remained robust. Customer deposits rose 9.0% from a year ago and 1.3% over 2Q15 to S$245 billion as at 30 September 2015, led mainly by growth in Singapore dollar deposits. The Group’s loan-to-deposit ratio was healthy at 81.6%. The Singapore dollar and all-currency liquidity coverage ratios were 186% and 134% respectively, well above the regulatory requirements of 100% and 60%.

Asset quality stayed resilient with a non-performing loan ratio of 1.3% as at 30 September 2015. NPL coverage remained strong at 142.7% and 345.4% if collateral was considered.

Shareholders’ equity increased 5.6% from a year ago to S$30.2 billion as at 30 September 2015, largely contributed by net profits and improved valuations on available-for-sale investments. Compared with 2Q15, shareholders’ equity decreased 1.1% mainly due to lower revaluation gain on available-for-sale investments. Return on equity was 11.1% for 9M15.

As at 30 September 2015, the Group’s strong capital position remained well above the MAS minimum requirements with Common Equity Tier 1 and Total CAR at 13.6% and 16.4% respectively. The Group’s leverage ratio stood at 7.2% as at 30 September 2015, well above the minimum requirement of 3%.
