RESPONSIBILITY

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

ANNEXE

1. The Perpetual Capital Securities Conditions shall be amended by deleting Condition 4(c)(i) in its entirety and substituting therefor the following:

- "(i) where "Benchmark Replacement (General)" is specified as being applicable in the relevant Pricing Supplement, if a Benchmark Event has occurred in relation to the current Reference Rate prior to the relevant SORA OIS Reset Determination Date when any Rate of Distribution (or the relevant component part thereof) remains to be determined by the current Reference Rate, then the following provisions shall apply:
 - (a) if there is a Successor Rate prior to the relevant SORA OIS Reset Determination Date relating to the next succeeding Distribution Period, the Issuer shall promptly give notice thereof to the Trustee, the Calculation Agent, the Issuing and Paying Agent and the Securityholders, which shall specify the effective date(s) for such Successor Rate and any consequential changes made to these Conditions. The Calculation Agent or such party responsible for determining the Rate of Distribution shall apply such Successor Rate on the relevant SORA OIS Reset Determination Date relating to the next succeeding Distribution Period for purposes of determining the Rate of Distribution (or the relevant component part thereof) applicable to the Perpetual Capital Securities;
 - (b) if there is no Successor Rate prior to the relevant SORA OIS Reset Determination Date relating to the next succeeding Distribution Period, the Issuer shall determine (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) an Alternative Reference Rate (as defined below) for purposes of determining the Rate of Distribution (or the relevant component part thereof) applicable to the Perpetual Capital Securities and shall promptly give notice thereof to the Trustee, the Calculation Agent, the Issuing and Paying Agent and the Securityholders, which shall specify the effective date(s) for such Alternative Reference Rate and any consequential changes made to these Conditions. The Calculation Agent or such party responsible for determining the Rate of Distribution shall apply such Alternative Reference Rate on the relevant SORA OIS Reset Determination Date relating to the next succeeding Distribution Period for purposes of determining the Rate of Distribution (or the relevant component part thereof) applicable to the Perpetual Capital Securities;
 - (c) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is notified by the Issuer to the Trustee, the Calculation Agent, the Issuing and Paying Agent and the Securityholders in accordance with the preceding provisions, such Successor Rate or, failing which, an Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Distribution Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 4(c)(i)); provided, however, that if subparagraph (a) or (b) applies and the Issuer does not notify the Trustee, the Calculation Agent, the Issuing and Paying Agent and the Securityholders of a Successor Rate or an Alternative Reference Rate prior to the relevant SORA OIS Reset Determination Date in respect of a Reset Date relating to the next succeeding Distribution Period, the Rate of Distribution applicable to the next succeeding Distribution Period shall be equal to the Rate of Distribution last determined in relation to the Perpetual Capital Securities in respect of the preceding Distribution Period (or alternatively, if there has not been a first Distribution Payment Date, the rate of distribution shall be the initial Rate of

Distribution (if any)). For the avoidance of doubt, the proviso in this subparagraph (c) shall apply to the relevant Distribution Period only and any subsequent Distribution Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 4(c)(i); and

- (d) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is notified by the Issuer to the Trustee, the Calculation Agent, the Issuing and Paying Agent and the Securityholders in accordance with the above provisions, the Issuer may also specify changes to these Conditions, including but not limited to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Distribution Determination Date and/or the definition of Reference Rate applicable to the Perpetual Capital Securities, and the method for determining the fallback rate in relation to the Perpetual Capital Securities, in order to follow market practice in relation to the Successor Rate or the Alternative Reference Rate (as applicable). If the Issuer (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) determines that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Reference Rate (as applicable). If the Issuer is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread. For the avoidance of doubt, the Trustee and Issuing and Paying Agent shall, at the direction and expense of the Issuer, effect such consequential amendments to the Trust Deed, the Agency Agreement and these Conditions (such amendments, the "Benchmark Amendments") as may be required in order to give effect to this Condition 4(c)(i). Securityholders' consent shall not be required in connection with effecting the Successor Rate or Alternative Reference Rate (as applicable) or such other changes, including for the execution of any documents or other steps by the Trustee or Issuing and Paying Agent (if required).

Notwithstanding any other provision of this Condition 4(c)(i), the Issuer may choose not to adopt any Successor Rate or Alternative Reference Rate, nor apply any applicable Adjustment Spread or make any Benchmark Amendments, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of Perpetual Capital Securities as Additional Tier 1 Capital Securities as eligible liabilities or loss absorbing capacity instruments for the purposes of any applicable loss absorption regulations.

For the purposes of this Condition 4(c)(i):

"Adjustment Spread" means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Issuer (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) determines is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to Securityholders as a result of the replacement of the current Reference Rate with the Successor Rate or the Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the current Reference Rate with the Successor Rate by any Relevant Nominating Body;
- (ii) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Issuer (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the current Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or
- (iii) if no such customary market usage is recognised or acknowledged, the Issuer in its discretion determines (acting in good faith and in a commercially reasonable manner, which may include consultation with an Independent Adviser) to be appropriate;

“Alternative Reference Rate” means the rate that the Issuer (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) determines has replaced the current Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of distribution in respect of perpetual capital securities denominated in the Specified Currency and of a comparable duration to the relevant Distribution Period, or, if the Issuer determines that there is no such rate, such other rate as the Issuer determines in its discretion (acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser) is most comparable to the current Reference Rate;

“Benchmark Event” means the earlier to occur of:

- (i) the current Reference Rate ceasing to exist or be published;
- (ii) the later of (a) the making of a public statement by the administrator of the current Reference Rate that it will, by a specified date, cease publishing the current Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the current Reference Rate) and (b) the date falling six months prior to such specified date;
- (iii) the making of a public statement by the supervisor of the administrator of the current Reference Rate that the current Reference Rate has been permanently or indefinitely discontinued or is prohibited from being used or that its use is subject to restrictions or adverse consequences or, where such discontinuation, prohibition, restrictions or adverse consequences are to apply from a specified date after the making of any public statement to such effect, the later of the date of the making of such public statement and the date falling six months prior to such specified date; and
- (iv) it has or will prior to the next SORA OIS Reset Determination Date become unlawful for the Calculation Agent, any Paying Agent, (if specified in the relevant Pricing Supplement) such other party responsible for the calculation of the Rate of Distribution, or the Issuer to determine any Rate of Distribution and/or calculate any Distribution Amount using the current Reference Rate specified

in the relevant Pricing Supplement (including, without limitation, under Regulation (EU) No. 2016/1011, if applicable);

“Relevant Nominating Body” means, in respect of a Reference Rate:

- (i) the central bank for the currency to which the Reference Rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate; or
- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the Reference Rate relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate, (c) a group of the aforementioned central banks or other supervisory authorities, or (d) the Financial Stability Board or any part thereof; and

“Successor Rate” means the rate that is a successor to or replacement of the current Reference Rate which is formally recommended by any Relevant Nominating Body.”.
