1. Introduction

As a leading financial institution in Asia, United Overseas Bank Limited and its subsidiaries worldwide (“UOB Group”) recognises that the environmental and social performance of our business, our suppliers and our customers plays a vital role in our long-term success. As we continue to deepen our presence across the region, we seek to address the environmental, social and governance (“ESG”) risks and effects of our operations in a manner consistent with our values. This approach extends to the procurement of products and services.

While we recognise that our suppliers are independent entities, the conduct of our suppliers has the potential to impact our reputation within the communities in which we operate. As such, we expect our suppliers to adhere to the standards set out in the UOB Group Supplier Sustainability Principles (“Principles”). The Principles set out the requirements we have of our suppliers in order to reduce the environmental and social risks associated with our sourcing activities and to mitigate the impact of our sourcing activities on the environment and society.

We understand that the ESG risks associated with supplier activities vary depending on their sector, size and location. As such, suppliers are expected to ensure that their practices comply with the Principles.

2. Supplier Obligations

A Supplier is any third party, company or individual that provides a product or service to UOB Group. The following organisations and entities (collectively referred to as “Suppliers”) are subject to the provisions of the Principles: contractors, agents, agency staff, consultants, vendors and suppliers of goods and services.

Suppliers shall comply with the Principles. Suppliers shall also promote responsible conduct among their suppliers in line with the Principles.

Suppliers shall provide timely disclosures to UOB Group of any circumstances that may cause non-compliance with the Principles.
