11. Contingent liabilities and commitments

The following is a summary of the contractual amounts of each significant class of contingent liabilities and commitments:

	As at 31 December 2021 HK\$'000	As at 30 June 2021 HK\$'000
Direct credit substitutes	1,913,376	1,149,450
Transaction-related contingencies	4,361,914	5,246,577
Trade-related contingencies	3,855,748	6,344,444
Forward forward deposits placed	-	1,082,757
Other commitments	<u>100,087,923</u>	<u>77,199,691</u>
	<u>110,218,961</u>	<u>91,022,919</u>

The above table shows the contractual amounts of credit related commitments and contingencies of United Overseas Bank Limited, Hong Kong Branch ("the Branch"). It includes letters of credit, guarantees and commitments to extend credit to customers. The above amounts represent a worst case scenario of credit risk exposures arising from these instruments, without taking into account any collateral held or other credit enhancements attached. The amounts do not represent amounts at risk at the balance sheet dates.

UNAUDITED SUPPLEMENTARY FINANCIAL INFORMATION (CONTINUED)

12. Liquidity (continued)

(c) Liquidity Risk Management

Liquidity risk is the risk arising from a bank's potential inability to meet all its financial or payment obligations when they fall due or only being able to meet these obligations at significant costs or losses.

The objective of the Branch's liquidity risk management align with the Group's risk management framework which is to ensure that the Branch maintains sufficient liquidity to fund our day-to-day operations, to meet deposit withdrawals and loan disbursements, to participate in new investments and to repay borrowings. Hence, liquidity is managed in a manner to address known as well as unanticipated cash funding needs.

Liquidity risk is managed in accordance with a framework of policies, controls and limits approved by the Group ALCO. These policies, controls and limits enable the Branch to monitor and to manage liquidity risk to ensure that sufficient sources of funds are available over a range of market conditions. These include minimising excessive funding concentrations by diversifying the sources and terms of funding, and maintaining a portfolio of high quality and marketable debt securities.

The Branch takes a conservative stance on liquidity management by continuing to gather core deposits, ensuring that liquidity limits are strictly adhered to and that there are adequate liquid assets to meet cash shortfall.

The distribution of deposits is managed actively to ensure a balance between cost effectiveness, continued accessibility to funds and diversification of funding sources. The Branch establishes concentration limits on collateral pools and sources of funding, such as concentration of bond securities holding and concentration of top 20 depositors. Important factors in ensuring liquidity are competitive pricing, proactive management of the Branch's core deposits and the maintenance of customer confidence.

The Branch's liquidity risk is aligned with the regulatory liquidity risk management framework and is measured and managed on a projected cash flow basis. The Branch is monitored under business-as-usual and stress scenarios. Cash flow mismatch limits are established to limit liquidity exposure. The Branch also employs liquidity early warning indicators and trigger points to signal possible contingency situations.

The Branch has contingency funding plans in place to identify potential liquidity crises using a series of warning indicators. Crisis management processes and various strategies including funding and communication have been developed to minimise the impact of any liquidity crunch.

15. Analysis of gross advances to customers by geographical areas

	As at 31 December 2021 HK\$'000	As at 30 June 2021 HK\$'000
Hong Kong	126,811,389	127,830,702
China	15,657,101	12,744,249
Other areas	8,285,713	6,363,658
	<u>150,754,203</u>	<u>146,938,609</u>

The above analysis of gross advances to customers by geographical areas is based on the location of the counterparties where it constitutes 10% or more of the total gross advances to customers after taking into account the transfer of risk. In general, transfer of risk applies when a claim is guaranteed by a party situated in a country different from the counterparty.

of which:					
- Mainland China	14,178	1,733	907	11,513	28,331

The above analysis is prepared with reference to the completion instructions for the Hong Kong Monetary Authority Return of International Banking Statistics. International claims are on-balance sheet exposures to counterparties based on the location of the counterparties after taking into account the transfer of risk, and represent the sum of cross-border claims in all currencies and local claims in foreign currencies. Claims on individual countries or areas after risk transfer, amounting to 10% or more of the aggregate international claims of the Branch, are shown.

The Branch follows the Group's guidelines and standards on acceptability of specific collateral for credit risk mitigation. Collateral is taken whenever possible to mitigate the credit risk assumed and the value of the collateral is monitored periodically. The main types of collateral are cash, marketable securities, real estate, equipment, inventory and receivables.
