## Performance by Business Segment (cont'd)

Business segment performance reporting is prepared based on the Group's internal organisation structure and the methodologies adopted in the management reporting framework. Business segments' results include all applicable revenue, expenses, internal fund transfer price and cost allocations associated with the activities of the business. Transactions between business segments are operated on an arm's length basis in a manner similar to third party transactions and they are eliminated on consolidation.

The Banking Group is organised into three major business segments - Group Retail, Group Wholesale Banking and Global Markets. Others include non-banking activities and corporate functions.

## Group Retail ("GR")

GR segment covers personal and small enterprise customers.
Customers have access to a diverse range of products and services, including deposits, insurance, card, wealth management, investment, loan and trade financing products which are available across the Group's global branch network.

Profit before tax increased $10 \%$ to $\$ 1.50$ billion in 9 M 19 , compared to a year ago. Total income grew $8 \%$ to $\$ 3.19$ billion driven by higher net interest income from volume growth and improvement in deposit margin, coupled with higher income from wealth management products. Expenses rose $10 \%$ from investments in people and digital capabilities. Total allowances for credit and other losses was lower at $\$ 136$ million.

Against the same quarter last year and previous quarter, profit before tax rose $20 \%$ and $7 \%$ to $\$ 533$ million, supported by higher net interest income and double-digit growth in wealth income partly offset by staff, technology and revenue-related expenses.

## Group Wholesale Banking ("GWB")

GWB encompasses corporate and institutional client segments which include medium and large enterprises, local corporations, multi-national corporations, financial institutions, government-linked entities, financial sponsors and property funds.

GWB provides customers with a broad range of products and services, including financing, trade services, cash management, capital markets solutions and advisory and treasury products.

Operating profit in 9M19 increased $4 \%$ to $\$ 2.35$ billion compared to a year ago. Net interest income grew $7 \%$ to $\$ 2.23$ billion from strong loan growth while non-interest income rose $10 \%$ to $\$ 872$ million supported by cash management, investment banking and loans related activities. Expenses were higher at $\$ 757$ million mainly from investments in headcount and technology to support strategic business initiatives. Profit before tax was relatively flat as allowances for impaired loans increased.

Compared to the same quarter last year and previous quarter, profit before tax was lower at $\$ 730$ million due to higher allowances for credit and other losses.

## Global Markets ("GM")

GM provides a comprehensive suite of treasury products and services across multi-asset classes which includes foreign exchange, interest rate, credit, commodities, equities and structured investment products to help customers manage market risks and volatility. GM also engages in market making activities and management of funding and liquidity.

Income from products and services offered to customers of Group Retail and Group Wholesale Banking are reflected in the respective client segments.

Compared to a year ago, profit before tax grew $57 \%$ to $\$ 256$ million. Total income rose $26 \%$ to $\$ 456$ million largely from higher trading and investment income while expenses increased $8 \%$ to $\$ 203$ million.

Profit before tax tripled to $\$ 91$ million in 3 Q19 as compared to the same quarter last year and $8 \%$ higher than the previous quarter on the back of higher trading income and gains from securities investment.

## Others

Others includes corporate support functions, decisions not attributable to business segments mentioned above and other activities, which comprises property, insurance and investment management.

Others recorded a net profit of $\$ 20$ million as compared to a loss of $\$ 18$ million a year ago, due to higher income from central treasury activities, dividend income and gain on sale of bonds. This was partially offset by higher operating expenses and lower contribution from associates.

Against same quarter last year and previous quarter, 3 Q 19 registered a loss of $\$ 30$ million mainly from higher allowances for non-impaired asset.

## Performance by Geographical Seqment (cont'd)

Geographical segment performance reporting is prepared based on the location where the transaction or assets are booked. The information is stated after elimination of inter-segment transactions.

## Singapore

Profit before tax for the nine months grew $12 \%$ to $\$ 2.45$ billion from a year ago, supported by double-digit growth in income. Net interest income rose $9 \%$ to $\$ 2.86$ billion from loan growth and higher net interest margin. Non-interest income increased $21 \%$ to $\$ 1.55$ billion from higher trading and investment income. Expenses were $10 \%$ higher at $\$ 1.89$ billion, primarily from investment in talent and technology to support franchise growth.

Compared to the same quarter last year, profit before tax increased $13 \%$ to $\$ 829$ million on the back of stronger income growth, partly offset by higher expenses and credit losses.

Profit before tax decreased $5 \%$ quarter on quarter to $\$ 829$ million due to higher allowances for credit and other losses.

## Malaysia

Profit before tax for the nine months declined $3 \%$ to $\$ 432$ million against the previous year due to unfavourable foreign exchange translation. Total income was marginally higher at $\$ 792$ million, as net interest income from loan growth was partly offset by lower net interest margin given policy rate cut and competitive pricing environment. Non-interest income improved 4\% to $\$ 249$ million supported by higher gain from government securities. Expenses increased $6 \%$ to $\$ 313$ million and allowances were relatively flat from a year ago.

Against the same quarter last year, profit before tax increased by $5 \%$ to $\$ 151$ million lifted by higher loan-related and wealth management fee income coupled with higher gain from government securities. Quarter on quarter, profit before tax registered a strong growth of $19 \%$ to $\$ 151$ million, led by $9 \%$ income growth and lower credit losses.

## Thailand

Compared to a year ago, profit before tax for 9M19 was $6 \%$ lower at $\$ 203$ million. Strong income growth of $11 \%$ to $\$ 788$ million was registered on the back of loan growth, broad-based increase in fee income and higher gain from government securities. Expenses increased $19 \%$ to $\$ 492$ million, largely from staff expenses and investment in digital bank.

Against the same quarter last year and previous quarter, profit before tax for 3 Q19 was lower by $46 \%$ and $30 \%$ respectively to $\$ 43$ million, as income growth was more than offset by investment in digital bank and higher allowances for credit losses.

## Indonesia

Profit before tax for the nine months increased marginally to $\$ 58$ million from a year ago. Income grew by $10 \%$ to $\$ 362$ million from higher trading income and increased fee from wealth and credit card. This was largely offset by higher staff and revenuerelated expenses, while credit costs were broadly stable.

Compared to the same quarter last year and previous quarter, profit before tax increased $\$ 16$ million and $\$ 5$ million respectively to $\$ 22$ million on the back of higher trading and investment income and lower allowances for credit and other losses.

## China

For the nine months, profit before tax grew $8 \%$ to $\$ 419$ million driven by higher treasury income and loan-related fee as well as lower allowances for credit and other losses. This was partially offset by reduced interest in an associated company.

Against the same quarter last year, profit before tax declined by $21 \%$ to $\$ 115$ million, largely attributed to a write-back in allowances for credit and other losses in 3Q18. Income grew $8 \%$ from a year ago driven by loan growth and broad-based increase in fee income.

Profit before tax was lower by $37 \%$ quarter on quarter as 2 Q19 benefitted from higher loan-related fee and treasury income as well as a write-back in allowances on non-impaired assets and recoveries from impaired loan.

## Others

Profit before tax for 9 M 19 declined by $2 \%$ to $\$ 424$ million from a year ago, as income growth was more than offset by higher expenses coupled with lower contribution from associates.

Profit before tax of \$164 million in 3Q19 represented $21 \%$ growth from a year ago and $20 \%$ against last quarter due to a writeback in allowances for credit and other losses.

The Group's CET1, Tier 1 and Total CAR as at 30 September 2019 were well above the regulatory minimum requirements.

Year on year, total capital was higher mainly from retained earnings and issuance of S $\$ 750$ million perpetual capital securities, partly offset by lower eligible provisions. RWA was higher largely due to asset growth.

Total capital was lower quarter on quarter mainly from interim dividend payment and redemption of US\$800 million subordinated notes, partly offset by issuance of $\mathbf{S} \$ 750$ million perpetual capital securities.

As at 30 September 2019, the Group's leverage ratio was $7.6 \%$, comfortably above the regulatory minimum requirement of $3 \%$.
